

Swings

(technical specification)

J484

1- **The 125mm diameter posts** are made of painted galvanised steel. The grained finish has a slightly undulating surface for increased scratch resistance.

2- **The horizontal beam** is made of non-painted galvanised steel.

3- **The swing bearings** are made of stainless steel.

4- **The swing seats** are made of shock absorbing moulded honeycomb rubber. The swing chains are made of stainless steel. The seat fixing brackets are made of 10mm stainless steel wire. PVC sliding rings are fitted to limit the wear of the metal parts over time. The rings are accessed by a vandal proof, stainless steel shackle.

5- **The pod swing seat for early childhood** is made of polyurethane, which ensures a comfortable seating. The swing chains are made of stainless steel.

6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
