

Springers

(technical specification)

J832

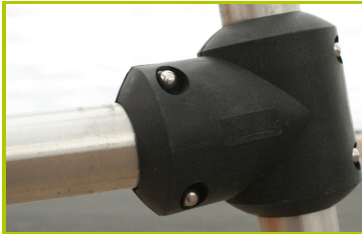

1- **The coloured panels and the seat** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

2- **The spring** is made from Grade 35SCD6 steel, shot blasted, stress relieved, zinc coated and finished with two coats of epoxy polyester powder. The polyamide attachment ensures longevity and an exceptional safety for the system.

3- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

4- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

5- **Plastic parts** are made of injected polyamide.

6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
