

Springers

(technical specification)

J836

1- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

2- **The seat** is made from a 12.5mm thick textured and non-slip compact material (HPL).

3- **The spring** is made from Grade 35SCD6 steel, shot blasted, stress relieved, zinc coated and finished with two coats of epoxy polyester powder. The polyamide attachment ensures longevity and an exceptional safety for the system.

4- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

5- **Plastic parts** are made of injected polyamide.

6- **The handles** are made of very strong polyamide plastic.

7- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
