

# Trails

(technical specification)

J16

1- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

2- **The 68mm square beams** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi and insects.

3- **The large beams** are 21mm thick panels made up of alternating layers of birch and pine. The surface is coated with a film of anti-slip phenolic resin.

4- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

5- **The 16mm diameter rope** is made of galvanised steel cable covered with polyester.

6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
