

Swings

(technical specification)

J3960

- 1- **The horizontal beam of the swing** is made of laminated timber, which has not been treated with chrome or arsenic. It is protected from wear and tear caused by fungi and insects.
Splinter-free, the laminate provides great strength and dimensional stability.

- 2- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

- 3- **The pod swing seat for early childhood** is made of polyurethane, which ensures a comfortable seating.
The swing chains are made of stainless steel.

- 4- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
