

# Swings

(technical specification)

J441

1- **The horizontal beam** is manufactured from 89mm diameter galvanized steel.

2- **The support legs** are made from 60mm galvanized steel.

3- **The pod** is made from a single piece of 30%-recycled rotomoulded polyethylene. It is fixed to a stainless steel frame that is fitted with buffers. The pod is suspended from galvanized steel ropes covered by PVC.

4- **PVC sliding rings** are fitted to limit the wear of the metal parts over time. The rings are accessed by a vandal proof, stainless steel shackle. The swing chains are made of galvanized steel.

5- **The double jointed swing mechanism** is made of stainless steel. A safety chain provides additional support for the pod.

6- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

7- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
