

Climbing equipment

(technical specification)

J4811

- 1- **The 125mm diameter post** is made of painted galvanised steel. The two-tone grey grained finish has a slightly undulating surface for increased scratch resistance. The cap is made of rotary moulded polyethylene.

- 2- **The 16mm diameter ropes** are made of galvanised steel cable covered with polyester. The cables are linked together and held in place by injected polyamide spheres.

- 3- **The net fittings** are made of polyamide. The fittings are composed of two distinct parts for ease of maintenance of individual strands.

- 4- **The net fittings** are made of polyamide and are used to link three cords together.

- 5- **The steps** are made with a non-slip rubber overmould.

- 6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
