

Climbing equipment

(technical specification)

J4815

1- **The 125mm diameter post** is made of painted galvanised steel. The two-tone grey grained finish has a slightly undulating surface for increased scratch resistance.

2- **The 16mm diameter ropes** are made of galvanised steel cable covered with polyester. The cables are linked together and held in place by injected polyamide spheres.

3- **The net fittings** are made of polyamide. The fittings are composed of two distinct parts for ease of maintenance of individual strands.

4- **The platform** is made from a textured and non-slip compact material (HPL), 19mm thick. The surface is circled with a 40mm diameter stainless steel tube.

5- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
