

Wooden trail (technical specification)

JPS21-J

1- **The vertical 95mm square post** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi and insects.

The posts are protected by injected polyamide caps.

2- **The tubes** are made of 34mm diameter galvanized steel.

3- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

4- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
