

Kanopé

(technical specification)

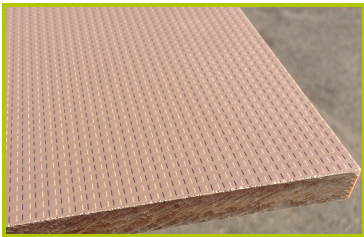

J5606

1- **The 95 x 95mm posts** are made of painted galvanised steel, ensuring robustness and durability.

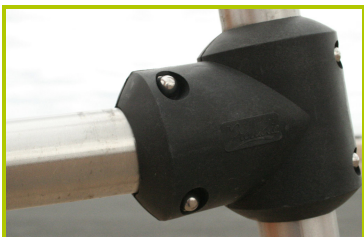

2- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

3- **The platforms** are made from a 12.5mm thick textured and non-slip compact material (HPL).

4- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

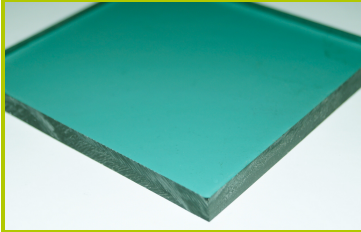

5- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

6- **The 16mm diameter rope** is made of galvanised steel cable covered with polyester.

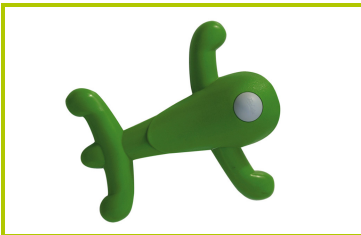

7- **The sliding surface** is made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

8- **The porthole** is made from 8mm thick methacrylate (PMMA).

9- **The caps** are made of rotary moulded polyethylene.

10-**The climbing holds** are made of polyamide for its strength and rigidity.

11-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
