

Rotating equipment (technical specification)

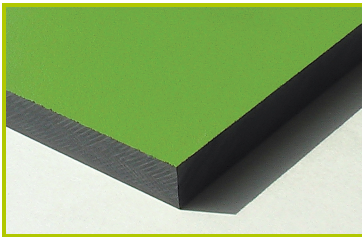

J2409

- 1- **The 102mm diameter posts** are made of painted galvanised steel. The two-tone grey grained finish has a slightly undulating surface for increased scratch resistance. The caps are made of injection moulded polyamide.

- 2- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

- 3- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

- 4- **A non-slip channelled aluminium surface** provides a good hold during rotation.

- 5- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
