

Rotating equipment

(technical specification)

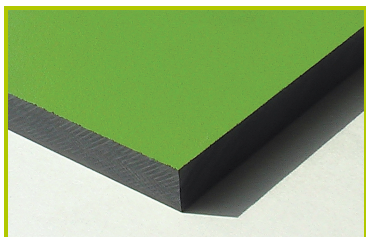

J3510

1- **The 180cm diameter wheel** is made of stainless steel. Further reinforcement is provided by a galvanised steel structure, on the inside of the equipment.

2- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

3- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

4- **The roof** is made of polyethylene plates 10mm thick.

5- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
