

# Diabolo

(technical specification)

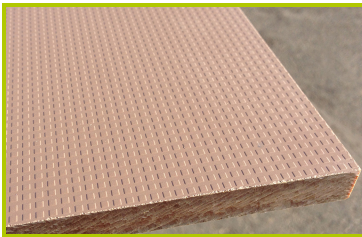

J38126

1- **The 95 x 95mm posts** are made of painted galvanised steel, ensuring robustness and durability. The caps are made of injection moulded polyamide.

2- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

3- **The platform and the steps** are made from a 12.5mm thick textured and non-slip compact material (HPL).

4- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

5- **The sliding surface** is made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

6- **The 16mm diameter ropes** are made of galvanised steel cable covered with polyester. The cables are linked together and held in place by injected polyamide spheres.

7- **Plastic parts** are made of injected polyamide.

8- **The abacus spheres** are made of polycarbonate sheets.

9- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
