

Diabolo Baby (technical specification)

J38708

1- **The 125mm diameter posts** are made of painted galvanised steel. The grained finish has a slightly undulating surface for increased scratch resistance.

2- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

3- **The platforms and the climbing wall** are made from a 12.5mm thick textured and non-slip compact material (HPL).

4- **The 60cm wide walkway** is made of a beveled aluminum treadplate.

5- **The baby-step Hill stairs** are machined in 20mm thick polyethylene anti-slip panels which are fitted to a polyester ramp.

6- **The roof of the 1.17m platform** is made of 10mm thick polyethylene plates.

7- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

8- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

9- **The sliding surface** is made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

10-**The climbing holds** are made of polypropylene. They are non-toxic, inflammable and shock and UV resistant.

11-**The abacus spheres** are made of polycarbonate sheets.

12-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
