

Traditional equipment (technical specification)

J49100

1- **The posts with average diameter 120 to 140mm** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- **The boards** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.
The coloured panels are using a staining process.

3- **The abacus pieces** are made of robinia.
The rail is made from 10mm diameter stainless steel.

4- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
