

Adventure

(technical specification)

J49103

1- **The boards** are made from sap free robinia (plank sizes: 22 and 27mm). The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- **The 16mm diameter ropes** are made of galvanised steel cable covered with polyester. The cables are linked together and held in place by injected polyamide spheres.

3- **The fixings for the nets and chains** are made from aluminium.

4- **The propeller of the plane** is made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

5- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
