

Sealife scenes (technical specification)

J49302

1- **The different posts** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- **The boards** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.
The coloured panels are using a staining process.

3- **The 16mm diameter ropes** are made of galvanised steel cable covered with polyester. The cables are linked together and held in place by injected polyamide spheres.

4- **The net fittings** are made of polyamide.
The fittings are composed of two distinct parts for ease of maintenance of individual strands.

5- **The seat** is made from rubber, 13mm thick.

6- **The slide** is made of stainless steel.

7- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

8- **The flag** is made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

9- **The telescope** is made of stainless steel.

10-**The steps** are made with a non-slip rubber overmould.

11-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
