

DESCRIPTION

The 6501 set is a mini complex for active play and fun. It includes a sandbox with manipulative panels and a tower with two slides! Easy-to-navigate entrances and low platforms create a barrier-free environment. Numerous interactive elements spark curiosity and encourage exploration, while the porthole window allows children to observe their surroundings. Construction: load-bearing posts made from stainless steel pipes with a diameter of 76.1 mm. Anchoring: directly in the ground. Platforms: non-slip HPL (12 mm). Roofs and safety panels: panels made from flexible high-pressure polyethylene HDPE (15 mm). Slides: sliding surfaces made from stainless steel, sides made from HDPE. Steel components: fittings and connectors made from stainless steel.
