

Trails

(technical specification)

J5917

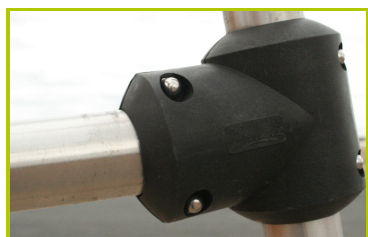

1- **The 125mm diameter posts** are made of painted galvanised steel. The grained finish has a slightly undulating surface for increased scratch resistance. The caps are made of rotary moulded polyethylene.

2- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

3- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features.

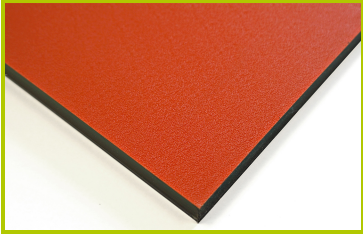

4- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

5- **The steps** are made with a non-slip rubber overmould.

6- **The chains** are made of stainless steel.

7- **The steps** are made from a 18mm thick, non-slip polyethylene material.

8- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
